Dear Mr. Benson:

Re: Notice of Intention to Revise Mining Operations, Keigley Quarry,  
ML 45517 Building Stone/Limestone, M/049/001, Utah County, Utah

The notice listed above has been reviewed by the division and has been found to be in order. You may proceed with operations as outlined in the notice with the following stipulations:

1. All surface disturbance resulting from your operations on the leased lands will be fully reclaimed to the satisfaction of the Division of State Lands and Forestry and in compliance with the State of Utah Mined Land Reclamation Act.
2. Compliance with the State of Utah Antiquities Act forbidding disturbance of archeological, historical, or paleontological remains; and immediate suspension of operations and notification of the Division of State History in the event such remains are encountered. Thank you for your cooperation in conducting the cultural resources survey. The State Historic Preservation Officer has concurred with the survey and agrees that no historic properties will be affected.
3. Granting this approval does not alleviate the necessity to comply with the requirements of the Division of Oil Gas and Mining regarding this development. You must contact them and comply with their requirements before beginning any work. Their address is: Division of Oil Gas and Mining, 355 West North Temple, 3 Triad Center, Suite 350, Salt Lake City, UT 84180-1203.

Page Two

4. The Division rules require a surety bond be posted to insure reclamation as well as compliance with all other lease terms. The bond currently held by the Division of Oil, Gas and Mining will cover operations as outlined in your plan. Your operation will be monitored and it may be determined at a later date that the bond may need to be increased.

Sincerely,

A handwritten signature in cursive script, appearing to read "Jerry W. Mansfield".
